EXPERIENCE

Safran Electronics and Defense, Peterborough — *Engineering intern*

July 2024 - August 2024

I tested units/products and designed equipment used for testing on AutoCAD.

Metropolitan Aerospace Rocket Society, Toronto — *Competition Lead*

January 2025 - Present

I am a team lead for the MARS competition that helps students learn everything about Rocketry. I teach students how to use programs like Openrocket and how to build their very own rocket.

Metropolitan Astronomy and Space Administration, Location — *Vice President Technical and Operations*

April 2025 - Present

I am responsible for our inventory of all our telescopes and equipment as well as show students how to use telescopes and technical issues of outreach events. I am also responsible for training new members and tech setup of events.

EDUCATION

Toronto Metropolitan University, Toronto — *Bachelor of Aerospace Engineering*

September 2024 - Present

I am currently attending TMU for a bachelors of Aerospace Engineering. Completing courses in topics like Thermodynamics, Calculus, Linear algebra, Physics, Materials sciences, and aerodesign.

Holy Trinity Catholic Secondary School, Courtice — *Highschool Diploma*

September 2020 - July 2024

Achieved a high school diploma in July 2024. Completing courses in Physics, Calculus, and Chemistry.
